- Allows measurement data transfer from test instrument to PC
- Test results can be printed out quickly and easily

Product overview: Fluke DMS Software

NOTICE: Fluke DMS Software Version 1.8 and lower currently utilizes Microsoft Access Runtime 2010. As of October 13, 2020 Microsoft will no longer support Office 2010 products with security updates. While your DMS Software Version 1.8 and lower will continue to function, you could be exposing yourself to serious and potentially harmful security risks. We recommend that you upgrade your DMS Software to Version 1.9 or higher. Versions 1.9 and higher utilize an updated version of Microsoft Access Runtime that will continue to receive security updates.

Fluke DMS (Data Management Software) Complete is a software package for data recording and management of test results when testing electrical installations or portable devices. The software is available in the following languages: English, German, French and Dutch.
