

TECHNICAL DATA

55XXA/PORTKIT | 5560A Portability Kit for On-Site Calibrations

Product overview: 55XXA/PORTKIT | 5560A Portability Kit for On-Site Calibrations

This optional kit makes the 5560A, 5550A or 5540A Multi-Product Calibrator an excellent fit for on-site or mobile calibration. The kit includes ruggedized handles and bumpers, including protection for the front panel with a cover that also acts as convenient storage for cables and accessories.

Use the kit to replace the original 5560A, 5550A and 5540A handles. The kit handles provide greater product protection and add more hand holds to make the calibrator easier to lift. The display cover/pouch protects the front panel and can hold assorted test leads or other items.

Kit contents

- (4) corner handles
- (2) side handles
- (4) cross bars
- (16 M3X8 cross bar screws)

- (20) M4x10 handle screws
- (4) M5x10 screws
- (4) strap washers
- (1) display cover/pouch with straps
- (4) top and bottom display cover/pouch straps
