# 2680A-OPC | OPC software for Fluke 2680 Series

Product overview: 2680A-OPC | OPC software for Fluke 2680 Series

OPC is a standard interface for passing data and communicating information between programs and devices in the Windows environment. When using the 2680A-OPC software, client programs such as National Instruments LabVIEW™, Canary Labs Trend Link, Wonderware® software and many others may request real-time or historical data from the Fluke DAQ database.

Requirements
700 MHz processor or greater
Windows 2000 or later
Free disk space – 400 MB
