5500A/LEADS | Test Lead Set

Descrizione generale del prodotto: 5500A/LEADS | Test Lead Set

Designed for use on the 5500A Multi-Product Calibrators

The 5500A/LEADS are professional-quality lead sets that ensure you always have the right probes and connectors for the job at hand. These top quality leads provide years of service and are designed to minimize connection loss and thermal effects. Each test lead has silicon insulation for easy handling and is rated at 1000V. In addition to the test leads, each Fluke lead set contains a full set of thermocouple extension wires with mini-thermocouple connectors on each end for fast, trouble-free calibration of thermocouple instruments. Each Fluke lead set comes with a soft carrying pouch for convenient transporting and storage.
